

AWARD WINNING TRIAL ATTORNEYS

**LOU ACCURSO, BURT HAIGH, ANDY MCCUE,
CLAY GILLETTE, CHRISTOPHER ACCURSO &
FRED BRANSON**

For more than 30 years, the trial lawyers at The Accurso Law Firm have been holding defendants responsible for their negligence, their fraud, and their conscious disregard for the safety of our fellow citizens. Our clients are victims of wrongdoers and have commonly suffered catastrophic physical, emotional and financial injuries. It is our mission to work tirelessly on behalf of our clients to bring them justice and to bring about a safer world so that others never feel the great pain inflicted by those who would sacrifice safety at the expense of others.

Over the past eight years The Accurso Law Firm has been honored to work closely with the many outstanding doctors and researchers at the University of Kansas Medical Center. Many of our clients have been patients at the University of Kansas Health System and have been provided with outstanding care and treated with compassion by all of the doctors, nurses and staff. Several of the doctors, researchers and administrators at the University of Kansas Health System played a vital role in achieving a successful result in a historic asbestos exposure medical monitoring class-action lawsuit for the protection of nearly 7500 people.
